

VENEER - JOINT

As plywood manufacturing advances, the demand for stronger, more reliable veneer joints grows. Adhesives are key to achieving durable, precise bonds, even on thicker veneers, while maintaining efficiency and minimal waste.

VENEER JOINT IN PLYWOOD

Free Bird Adhesives offers **8083**, a primary option designed for veneer joints in plywood manufacturing. Combined with high-quality **polyester yarn**, it provides superior bonding strength, even on veneer thicknesses of **3.0 mm** and above. It performs well on various plywood **composing machines** with minimal glue stringing.

8083 is available in a 25 kg plastic bag.
Shelf life of 24 months.
