

TIANJIN SHENGWANG
ELECTRONIC CHEMICAL PLANT

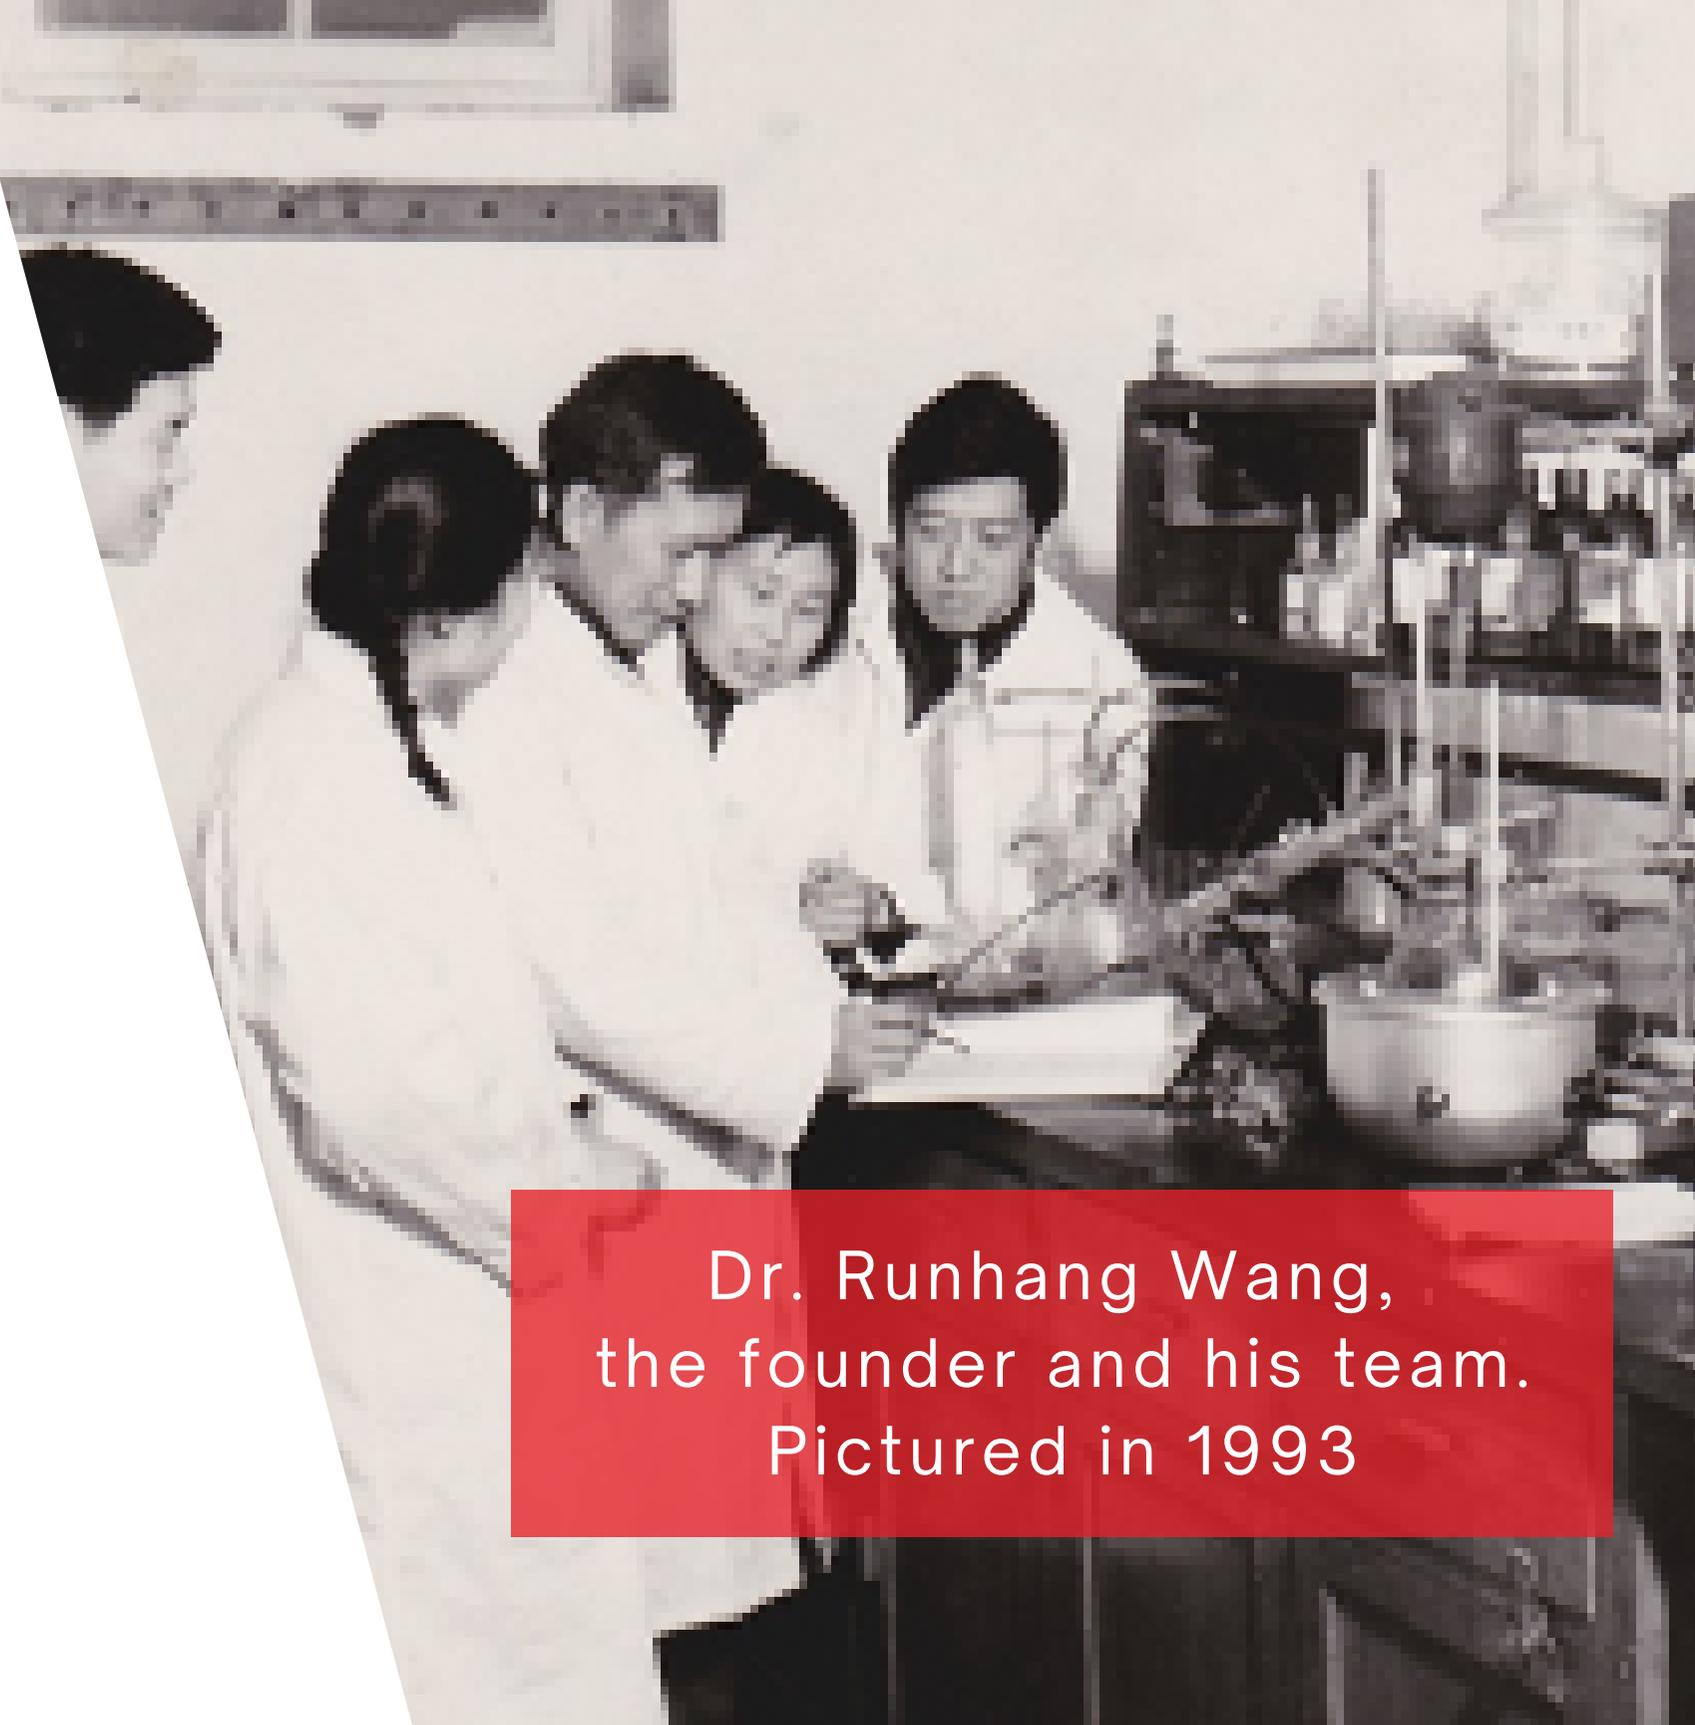

COMPANY PROFILE

www.swhotmeltglue.com

30 YEARS OF DEVELOPMENT

- Founded in 1993 as a small family business, the company gradually became a leading player in the domestic market in China. Over the past decade, it has expanded overseas and established a strong presence on the global stage.

Dr. Runhang Wang,
the founder and his team.

OUR GLOBAL FOOTPRINT

From South Asia to the Middle East, across the Pacific Ocean to the America, you will find us at many international trade fairs.

MANUFACTURING PLANT

- The industrial park, located in TIANJIN, was completed at the end of 2004. It spans 40,000 square meters, and has an annual capacity of 20,000 metric tons of hot melt adhesives.

PRODUCTION FLOOR

- Three-floors high
- Eight 4-metric-ton reactors
- Four 1-metric-ton reactors
- Fully automated systems

WAREHOUSE & STORAGE

- 6 storage sections
- Total of 12 rows, 2 layers high
- Ready-to-ship stock, available for packing and shipment

GLOBAL COMPETENCE

- Global competence is more than a slogan. From South Asia to the Middle East, across the Pacific Ocean to the America, you will find our products via our local distributors, dealers, and strategic partners.

DISTRIBUTION NETWORK

- North America (United States, Mexico)
- South America (Brazil, Peru, Chile)
- Eastern Europe (Turkey, Russia)
- the Mid East (Saudi Arabic, UAE)
- Central Asia (Kazakhstan)
- South Asia (India, Pakistan, Sri Lanka)
- Southeast Asia (Malaysia, Vietnam, Indonesia)
- Africa (Nigeria, South Africa, Algeria)

OUR CORE COMPETENCY

30 years of expertise

With three decades of industry experience, we take pride in offering a diverse range of products, each boasting a proven track record of customer satisfaction within your local market.

Cost effectiveness

We prioritize cost-effectiveness, as our key competence, offering solutions that balance your budgetary needs with customer acceptance, driving business growth for many of our clients.

Flexible payment terms

We understand the importance of flexible payment terms for a mutually beneficial partnership. That's why we offer options, such as TT against BL, Letter of Credit, and Open Account, to our trusted clients. **»**

PRODUCT LIST

www.swhotmeltglue.com

EVA HOT MELTS (Ethylene Vinyl Acetate)

- renowned for its versatility and effectiveness.
- these are mainly used in markets as diverse as woodworking, bookbinding, packaging, etc.

PUR HOT MELTS (Reactive Polyurethane)

- excellent bonding strength and superior resistance against heat and chemicals make it ideal for demanding applications, in woodworking, i.e. edge banding, profile wrapping, lamination.

PSA HOT MELTS **(PRESSURE SENSITIVE)**

- remains tacky and soft after cooling and setting, upon the application of light pressure
- commonly used in tape and labels, packaging, and non-wovens.

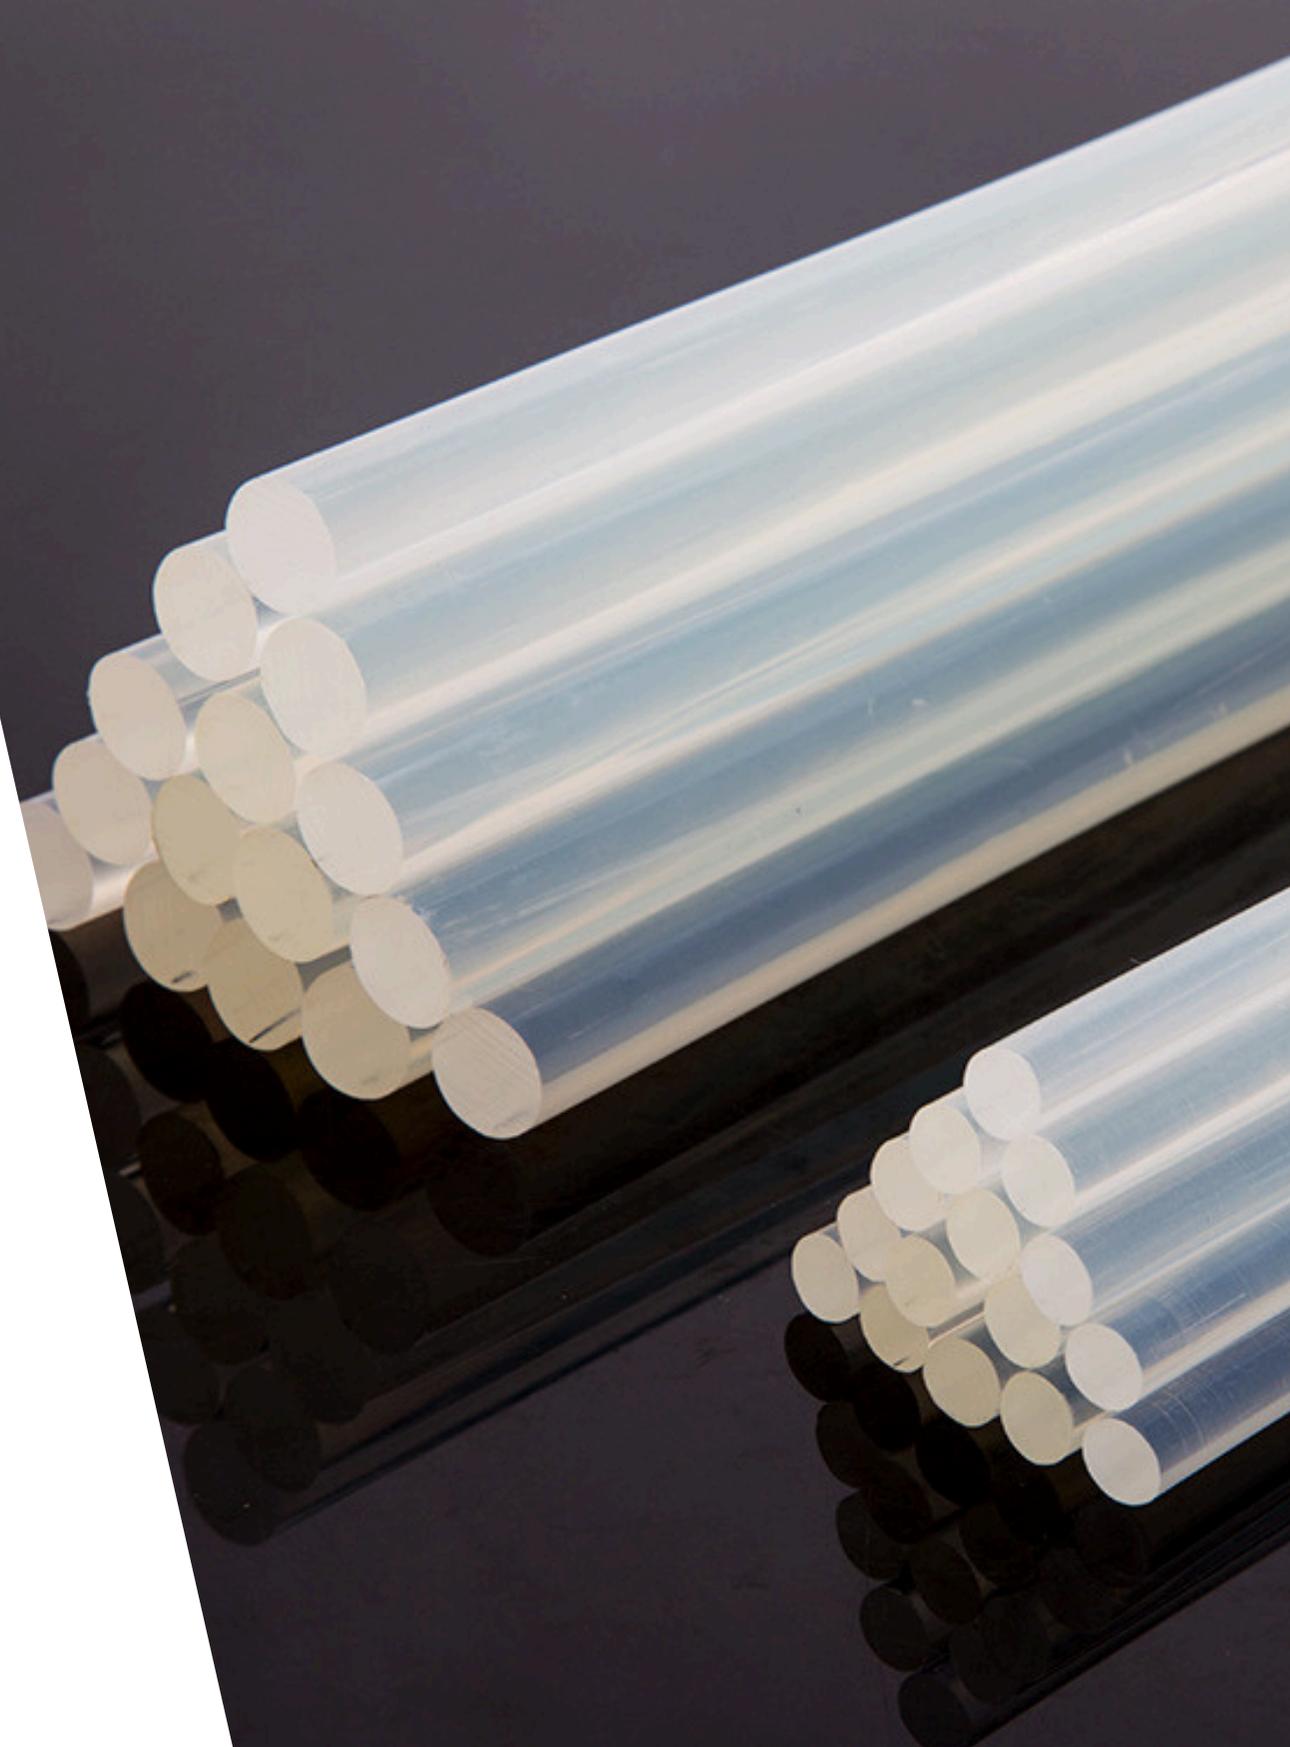

WATER BASED GLUE (PVAC, PU, VAE)

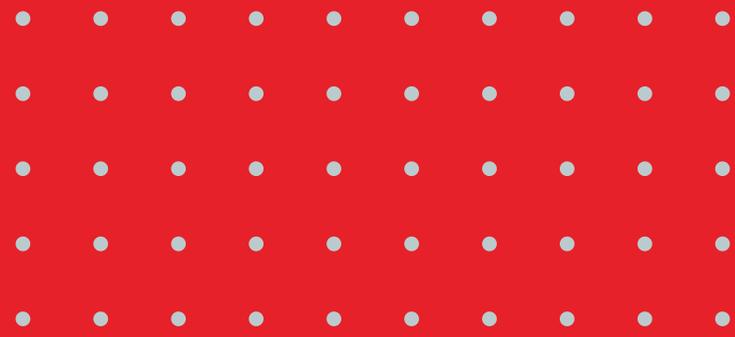

- eco-friendly solutions composed primarily of water as a solvent, with polymers dispersed within it.
- primarily in woodworking, for membrane press, wood joint, lamination, etc.

GLUE STICKS

- glue stick and glue gun play a necessary role in manual operations.
- commonly used in handcraft, packaging, and endless DIY bonding.
