

COURIER BAG**SW5080**

Application: A rubber-based hot melt pressure-sensitive adhesive designed for flexible packaging applications, providing excellent adhesion to films, nonwoven fabrics, PE/PP courier bags.

Characteristics: Low odor and free of fluorescent additives. Provides excellent strength, good thermal stability, and low adhesive consumption. Its low viscosity and good melt flow enable fast, efficient application.

Specification:

Polymer basis	SBC
Viscosity at 150°C (mPa s)	~ 12,000
Softening point	85 +/- 5°C
Supply form	Light yellow pillows
Application temperature	140 - 160°C
Process	Spray / slot nozzles applicators

Packaging & Storage: in a 25 kg box. 40 boxess/ pallet

Shelf life of 24 months, in original package, cool and dry.

Remarks: All data indicated are characteristics represented as average values. Our technical data sheets are revised to represent the latest information. This edition is valid on the date of compilation.
